

MGMT-3105-24F

Phase B Requirements & Rubrics

Project Submissions

- The students must first be divided in groups (2-4), create a company and associated logo pertaining to their project at hand.
- Each group will have one Project Manager.
- Each phase (A, B and C) will have a different Project Manager.
- The Project Manager will submit the **Group report** containing the items in the following sections. However, this is a team effort, and all group members are expected to contribute. If one or more members do not contribute, then they will receive no marks for the group submission.
- Each Project Manager will submit a **Project Manager report** at the same time as the group project. A template is provided.
- Each Team Member who is not a project manager for the current phase will submit a **Team Member report** at the same time as the group project. A template is provided.
- All report submissions will be digital through FanshaweOnline (FOL)
- Upload a single **PDF** file containing the entire group submission along with the files in original format

Organization (5 Marks)

- The report should have a cover sheet and follow the provided template.
- All items should be easy to read and understand.
- Any diagram should be large enough to read the text on the diagram. Large diagrams may be broken into parts so long as it is easy to follow.

Previous Material (5 Marks)

- The report should include (and start with) the Project Charter, Scope Statement and WBS
- Corrections should be made based on feedback from Phase A

MGMT-3105-24F

Phase B Requirements & Rubrics

1. AON Diagram (20 Marks)

AON Duration Table:

5 marks

A table with your activities, their durations, predecessors, and successors must be included
Durations should be reasonable

AON Duration Format:

5 marks

Durations should include units (days)
Should match the included WBS
Should have a code for each task

AON Diagram:

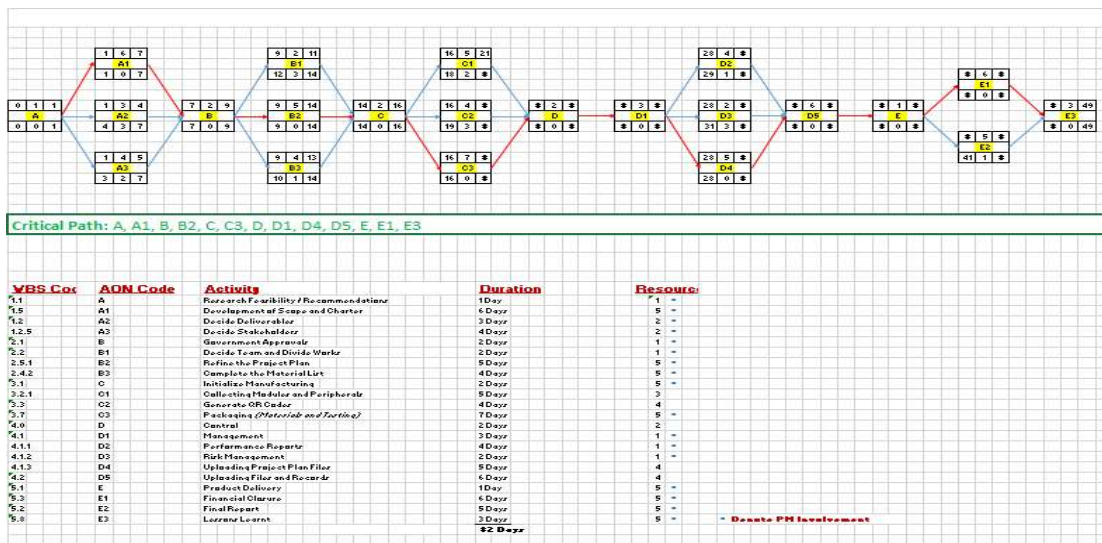

5 marks

Complete diagram, although some hammocking is allowed
Include a legend showing what box is for ES, LS, etc.
A reasonable number of activities should be in parallel

AON Diagram Calculations:

5 marks

Forward pass and backwards pass must be completed and correct
Identify the critical path

MGMT-3105-24F

Phase B Requirements & Rubrics

2.

Risks (20 Marks)

Risk Identification:

5 marks

Identify at least eight risks (or whatever your tutorial instructor requested)

Each risk is classified as covered in the class lectures

Risk Format:

5 marks

Each risk is given a low, medium, or high impact

Each risk is given a low, medium, or high probability

Each risk is given a code

Each risk is identified as green, yellow, or red level of exposure depending on its impact and probability

Risk Mitigation:

5 marks

Devise a mitigation strategy for each yellow and red level exposure risk

Categorize the strategy as one of the types given in the lecture

Risk Matrix:

5 marks

Create a Risk Matrix

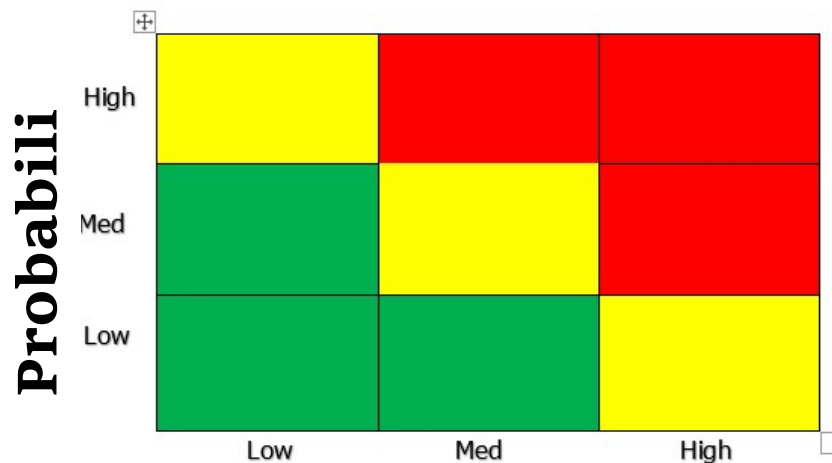

Label it properly

Include the code for each identified risk in the correct cell

You do not require a risk in every cell

Colour the matrix to match the implied organization exposure level of each risk (green, yellow, red)

Risk Matrix

Impact

Phase B Requirements & Rubrics

3. Gantt Chart (15 Marks)

Gantt Chart:

5 marks

Create a simple Gantt chart in Excel.

Activities should match your WBS and AON
Leave activities at "0% Complete for Phase B"

Gantt Format:

5 marks

The unit of time should be days

The dates can be real dates or start with "Week 1"

Include arrows to show relations between task

Corner-to-corner tasks can imply Finish-to-Start
relations without an arrow

All relations can be Finish-to-Start

The relations between tasks should match your AON

Milestones:

5 marks

Identify the end of activities that match your
Milestones on your Gantt Chart with a diamond Q.
(You can also add the planned Milestone dates as a
different symbol like ♦.)

Include a paragraph comparing your expected
milestones in your Charter to your milestone dates in
your Gantt. They do not need to be the same!
